1968

COMPANY SUMMARY

G.R. Traders boasts a rich history of growth and innovation. Established in 1968, the company quickly set its sights on international expansion. By 1969, they secured an import license, opening the door to global trade. Their commitment to quality was solidified in 1982 when they became the sole agent for M. Dohman GmbH & Co., a well-respected German corporation. This partnership further strengthened their market position. In 2004, G.R. Traders joined REAP, demonstrating their dedication to exporting high-quality Basmati Rice to Europe. Recognizing the growing demand for organic products, they expanded their business in 2011 to include herbal and botanical offerings. Most recently, in 2020, they partnered with Akkim, Turkey's leading chemical manufacturer, to broaden their reach and product range.

Fueled by a desire to support Pakistan's economic needs, G.R.Traders made a strategic shift in 2023. With the country prioritizing export promotion and restricting imports, the company decided to venture into international trade for their domestic herbal products. This move not only reflects their adaptability but also underscores their commitment to playing a role in Pakistan's economic well-being.
